

# ADJUSTABLE HEIGHT ULTRA HIGH MOUNT KIT

Chevy Small Block, Ram Jet, Tuneports, and Multi-Carb Systems

## Ultra Kit

Precision CNC machined from solid billet 6061-T6 aluminum to fit perfectly and handle high torque and vibration. This bracket kit comes complete with stainless steel tensioning rods and chrome moly rod ends for high performance operation. All necessary hardware included. Powdercoated to eliminate polishing in those hard to reach places. Matching serpentine pulleys are precision CNC machined from 6061-T6 aluminum. This is the same material we use for NASCAR pulleys! These pulleys will not fracture like common cast pulleys! High tensile strength means much longer wear. We go as far as hard coating the high wear areas to 65 Rockwell (harder than steel). Our street rod ratio increases water flow and fan speed. This helps at critical low speed driving. All pulleys have a maintenance-free clear powdercoat.

### Application:

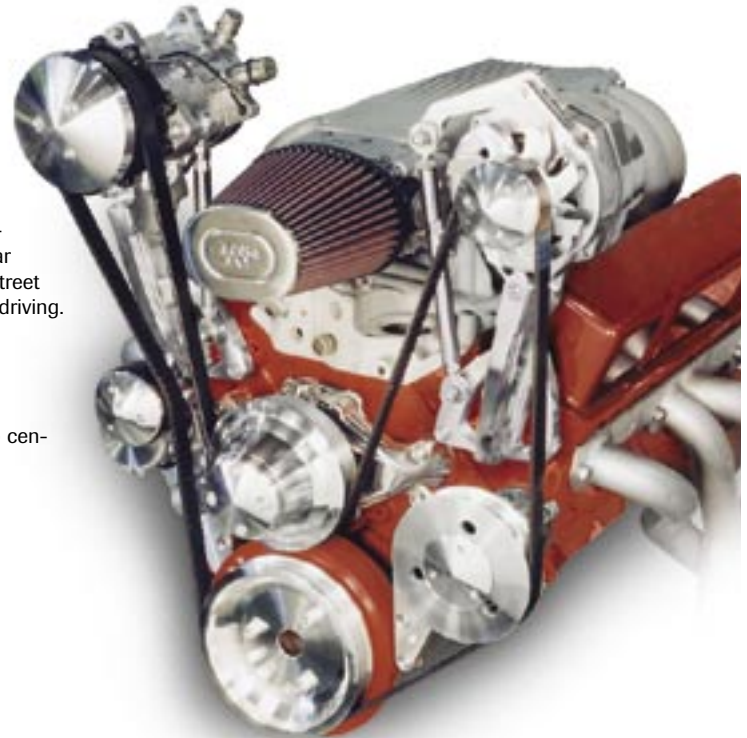

1955 and earlier cars. All full size trucks requiring 13.75" from water pump centerline to hood.

### Kit Includes:

- Alternator and A/C brackets with Perfect Positioning™ bushing
- OEM Style Tensioner
- Tensioning rods and adjustable rod ends
- Crank pulley, water pump pulley, nose cover, alternator pulley with fan and nose cover
- A/C cover
- Mounting hardware
- Power steering kit includes power steering bracket and pulley

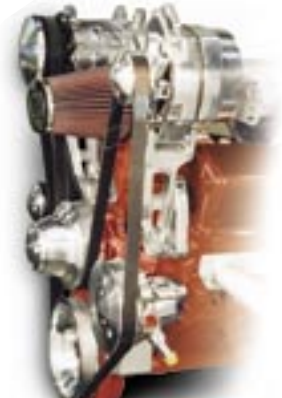

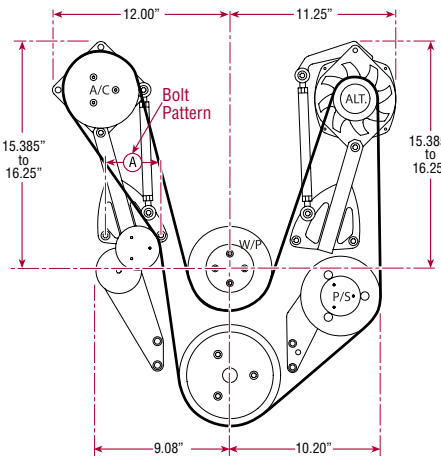

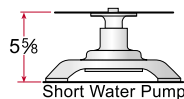

### Optional Matching Billet Aluminum Accessories:

- #400 crank pulley nose cover (high water flow kits only)
- #450 billet remote power steering reservoir

OEM Style Tensioner
