

CHEVY SMALL BLOCK SERPENTINE DRIVE

"Inward Mount" For Single Carbureted Engines
Short Water Pump / Standard & Reverse Rotation

Lower Cost Deluxe Kits

Precision CNC machined from solid billet 6061-T6 aluminum to fit perfectly and handle high torque and vibration. This bracket kit comes complete with stainless steel tensioning rods and chrome moly rod ends for high performance operation. All necessary hardware included. Powdercoated to eliminate polishing in those hard to reach places. Matching serpentine pulleys are precision CNC machined from 6061-T6 aluminum. This is the same material we use for NASCAR pulleys! These pulleys will not fracture like common cast pulleys! High tensile strength means much longer wear. We go as far as hard coating the high wear areas to 65 Rockwell (harder than steel). Our street rod ratio increases water flow and fan speed. This helps at critical low speed driving. All pulleys have a maintenance-free clear powdercoat.

Application:

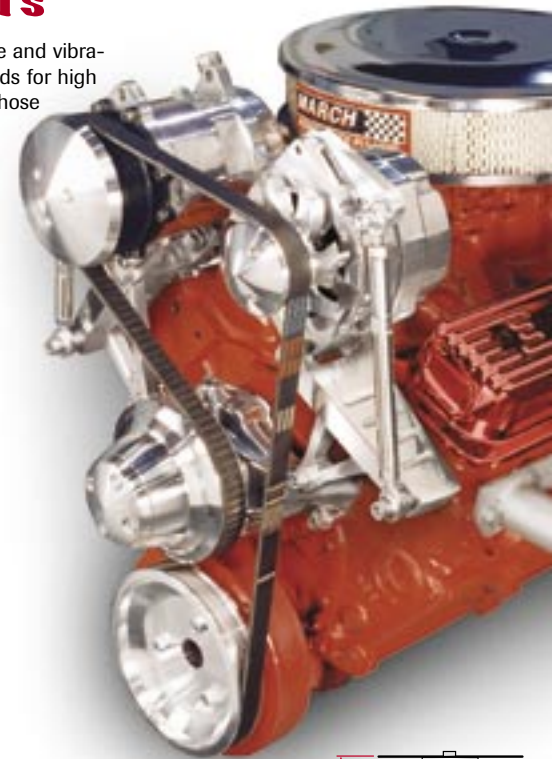

Fits most cars. Requires 13" clearance from center of water pump shaft to hood. Works best with 1969 or later heads, 1969 - 1984 heads require taping one hole in passenger side head, later heads simply bolt on.

Kit Includes:

- Alternator bracket
- A/C kit includes A/C bracket, hardware and nose cover
- Tensioning rods and adjustable rod ends
- Crankshaft pulley, water pump, pulley and nose cover
- Alternator pulley with fan and nose cover
- Mounting hardware
- Power steering kits include bracket and pulley

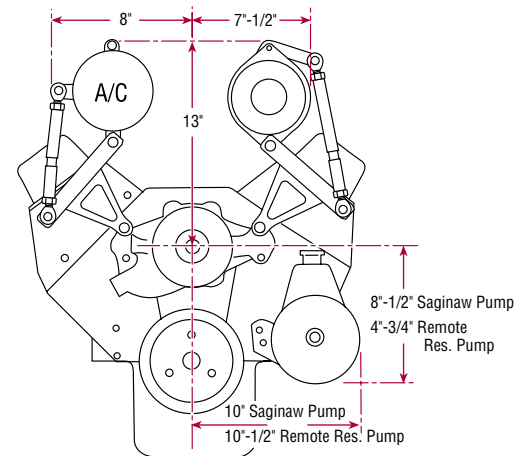

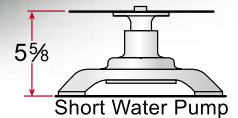

Optional Matching Billet Accessories:

- #400 crank pulley cover
- #450 billet remote power steering reservoir

Shown with optional:

- 395...A/C cover
- 221...Alt fan
- 321...Water pump nose cover
- 400...crank pulley
