

# New Products for 2004

March Performance is pleased to announce several new performance bracket and pulley kits for 2004. Precision CNC machined from solid billet 6061-T6 aluminum to fit perfectly and handle high torque and vibration. Bracket kit comes complete with stainless steel tensioning rods and chrome moly rod ends for high performance operation.

## “Mid Mount Alternator & Power Steering” Chevy Big Blocks:

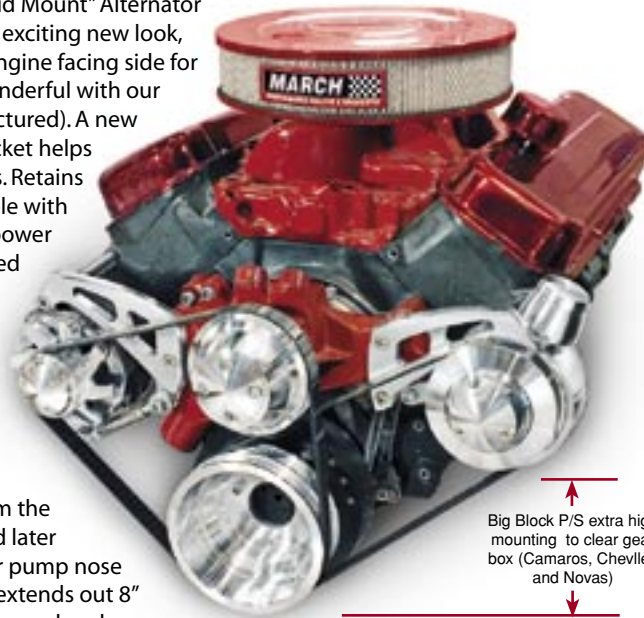

Simple yet exceptionally styled this new “Mid Mount” Alternator and Power Steering serpentine kit offers an exciting new look, these brackets are even machined on the engine facing side for a great appearance from all sides. Looks wonderful with our new billet power steering pump case (as pictured). A new higher mounted power steering pump bracket helps clear the steering gear box in some vehicles. Retains your standard rotation water pump. Available with performance pulleys which increase horsepower or high water flow ratios pulleys for increased cooling. All our billet pulleys and brackets have a “No Polishing” maintenance-free clear powdercoating. Kit comes complete with stainless steel tensioning rod, chrome moly rod ends and necessary mounting hardware.

### Application:

These kits fit most mid and full size cars from the early 1950’s and newer. Kit also fits 1969 and later Camaros and Nova’s. Other cars check water pump nose to radiator clearance. Long water pump kit extends out 8” from the engine block with nose cover in place, plus clearance for mechanical or electric fans.

### Kit Includes:

- Crank pulley
- Water pump pulley with nose cover
- Alternator pulley with alternator fan and nose cover
- Alternator Bracket with relocation arm and adjustment rod
- Power steering kit includes power steering brackets and pulley with nose cover

Big Block P/S extra high mounting to clear gear box (Camaros, Chevilles and Novas)

Shown with optional Billet P/S Pump Case

Separate Alternator & Power Steering bracket kits also available

## “Billet” Power Steering Pump Case

Replace your ugly Saginaw power steering pump canister with a phenomenally styled aluminum billet reservoir. Perfect accompaniment to March Performance bracket kits. Available as a complete pump assembly ready to bolt right up or billet pump case only to be used with your current Saginaw power steering pump internals.

# Chevy Big Block Serpentine Conversion

## Long Water Pump Standard Rotation

### Ultra "Mid Mount" Alt & P/S Kit

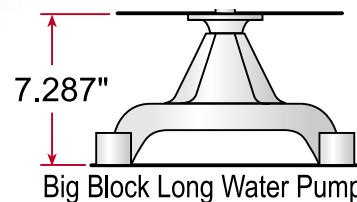

Simple yet exceptionally styled this new "Mid Mount" Alternator and Power Steering serpentine kit from March Performance offers an exciting new look, these brackets are even machined on the engine facing side for a great appearance from all sides. Looks wonderful with our new billet power steering pump case (as pictured). A new higher mounted power steering pump bracket helps clear the steering gear box in some vehicles. Retains your standard rotation water pump. Available with performance pulleys which increase horsepower or high water flow ratios pulleys for increased cooling. CNC machined from solid billet 6061-T6 aluminum for a spectacular looking machine finish with perfect fit and extra high strength. All our billet pulleys and brackets have a "No Polishing" maintenance-free clear powdercoating. Kit comes complete with stainless steel tensioning rod, chrome moly rod ends and necessary mounting hardware.

#### Application:
