

New Product for 2007

Style TRACK

Highly Styled Low Cost Serpentine Drive

It has never been done better! March Performance new Style Track serpentine system is created with a combination of style and low price that is sure to find favor among car enthusiasts everywhere. The highly styled one piece alternator and air conditioning bracket provides a rigid support for the alternator and A/C compressor; a separate bracket allows the option of power steering or no power steering. Best of all, March's new Style Track bracket kit cost \$700 less than other similar units on the market.

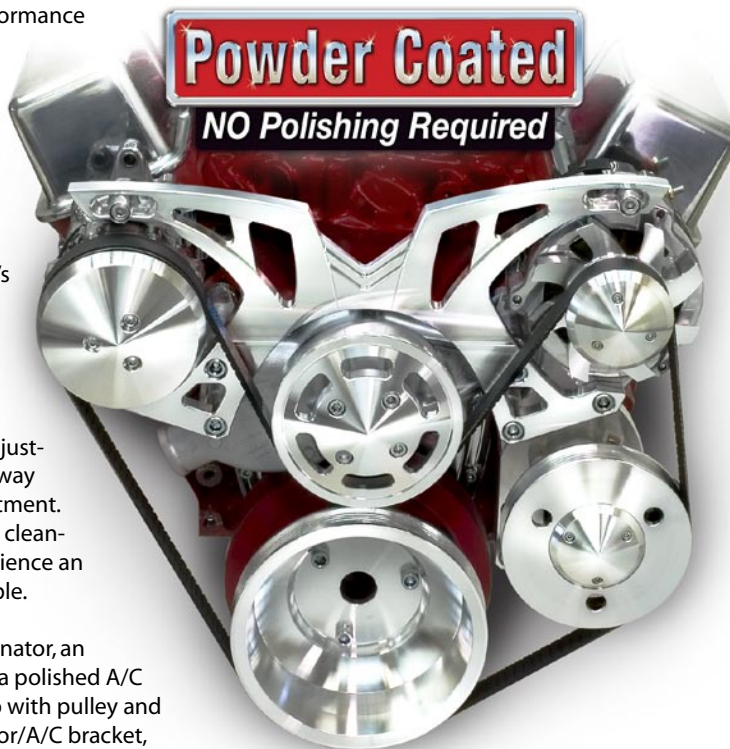

The new Style Track makes use a unique easy to use belt tension adjustment tool. Once the belt tension has been set, the adjustment tool is easily removed and stowed away until the next time the belt requires adjustment. As a result, the Style Track displays a much cleaner appearance. For the ultimate in convenience an optional spring loaded tensioner is available.

The Style Track comes complete with alternator, an alternator pulley with fan and nose cover, a polished A/C compressor and nose cover, a water pump with pulley and nose cover, a crank pulley and the alternator/A/C bracket, complete with the belt tensioning tool. Kits with power steering include a type2 remote power steering pump and the power steering pump pulley with nose cover. These kits also include all the mounting hardware you'll need and detailed instructions so installation is a snap. You can also forget about polishing this assembly, as it features maintenance-free clear powder coating.

Shipping Now for Chevy small block short water pump. Chevy big block and Ford small block coming soon.

Application:
